Spencer Butte Neighborhood Association

Neighborhood Watch Groups

SBNA has an active Neighborhood Watch program throughout our area. In order to keep this program useful and relevant we have broken each Watch Group into 9 smaller neighborhood groups of 15 to 20 households.

These groups focus on safety, disaster training, Firewise programs, community building and any other concern or interest each local group needs or wants.

Check our Facebook or web page for contact information

Spencer Butte Neighborhood Association

WELCOME TO THE SPENCER BUTTE NEIGHBORHOOD ASSOCIATION

The Spencer Butte Neighborhood Association (SBNA) was formed in 1954 –then called the Spencer Butte Improvement Assoc. – as a way to keep neighbors connected and informed of things happening out in our rural setting. The Association boundaries start at approximately the Eugene city limits markers for both Willamette St. and Fox Hollow Rd. and stretch as far as the McBeth/Fox Hollow intersection.

The organization has gone through many transformations of the years. In its present state it maintains itself

as a social organization along with community education and awareness, as it strives to keep neighbors connected and informed about local issues and concerns.

SBNA is made up of a diverse, interesting, and active group of neighbors. We have a local board that represents the neighbors and their concerns. We host an annual meeting and different social events through out the year; wine tastings, picnics, garden walks. All activities are created by the interests expressed by our neighbors.
