

Hello Neighbors,

Cascades Raptor Center is officially starting our Summer Flight Shows on Wednesday, July 8th. We do two shows a day, Wednesday-Sunday, at 11:30 and 2:30.

While the birds we fly in our show are highly trained, **sometimes things happen and a bird takes off and leaves our property** - we call this a fly-off. **If a fly-off occurs, each bird has a radio transmitter attached** to them that we use to find said bird. We will notify the SBNA when this happens to put out an email letting neighbors know that **our trainers will be out following the bird**. We try to stick to main roads, but **sometimes we may come onto people's properties**. We will do our best to announce ourselves, and be as unobtrusive as possible. We will have our raptor center branded gear on, and **one of us will have our receiver which unfortunately resembles a crossbow but is completely harmless, I promise** (see attached picture).

If you have any questions or concerns, please feel free to reach out to Carrie at Carrie@cascadesraptorcenter.org.

Best,
Carrie
